

## **Student Privacy and Distance Education**

1. A student who enrolls in a course that has components of distance education will have a unique Identification and password assigned by the Information Technology Center.
2. Our Lady of Holy Cross College Information Technology Department is responsible for maintaining a secure online environment.
3. The student is responsible for protecting their identification and password on any school related electronic medium once individually issued by the Information Technology Department during the registration process.
4. Additional identification verification may be undertaken by different programs as necessary.
